# School Report

---

The Crawley's Falls school was in charge of Miss Alice Lyons during the spring term, and the scholars in the primary grade (for which Miss Lyons had had special training) made wonderful progress. In this school Miss Mary Wilbur has taught the fall and winter terms, and we are pleased to note the improvement in deportment and consequently progress in study has attained a much higher degree of satisfaction.

At the end of the spring term, we were sorry to lose from our list of teachers Miss Mary O. Caverly, who had done excellent work at the East Brentwood school. Miss Nina Spofford taught six weeks of the fall term, after which the school was put under the supervision of Miss Sarah A. Jones, who proved herself a thorough instructor.

The South road school has continued under the direction of Mrs. Alice E. Foss, the same faithful and efficient teacher who has taught it successfully for three years in succession.

The resignation of Miss Mary L. Nixon, who taught the North road school two and one-half years, with perfect success, took effect January 6th. The School Board were fortunate in securing the services of Miss Gertrude Towle, who carried on the work in a very commendable manner for the remainder of the term.

The number registered in our schools for the year is ninety.

The number of children enumerated by the Truant Officer, between the ages of five and sixteen, is eighty-four.

Our schools at the close were running smoothly, and in a satisfactory manner, with a few exceptions. All of our teachers have had over five years' experience, some of them many more, and three hold State Certificates. We aim to retain the services of experienced teachers.

We feel proud of our school children, most of them are bright scholars, and the parents and friends who visit our schools often cannot help being rarely entertained. It also helps the teachers and scholars more than we at once realize, to have an interest shown in their work.

Time flies, and the children of to-day will in a short time be taking our places. The parents should impress upon the children the rapid flight of their school-days, and the importance of a good education. An encouraging feature during the year just closed is the visits of parents and friends to our schools. Visits have been made to the number of 320.

One of the discouraging features is the large number of tardinesses, especially in the East Brentwood school, the total being nearly three-fourths of all registered. The South road school had none for the entire year. Absences also occur too frequently for the rapid advancement of some of our scholars. We may understand by a moment's reflection that in order to make the most of our time, given us for school work, we must be in our places every day attending to our studies. Many of the parents in our town see clearly the importance of this and act upon it, while others are indifferent or careless.

New readers have been introduced, which have given very good satisfaction, and many other worn out books have been replaced by new ones. The geographies are almost completely worn out and should be replaced by a new up-to-date series. A substantial board fence has been built around the Crawley's Falls school yard. A hard pine floor has been put in at East Brentwood and the old benches have been replaced by new steel sanitary desks. The platform at East Brentwood needs resilling and a new floor should be laid in the North road school-room, besides a few minor repairs.
